

## ***Eagle Harbor Swimming Pool Safety Lightning and Storm Safety***

*Lightning's behavior is random and unpredictable. The Eagle Harbor Management Team makes your safety our top priority by adopting the recommendations of the National Lightning Safety Institute. Preparedness and quick responses are the best defenses towards lightning and storm hazards.*

### ***General Information Pertaining To Pool Facilities and Lightning and Storms***

*Swimming pools and their surrounding facilities are connected to a much larger surface area via underground water pipes, gas lines, electric and telephone wiring, etc. Lightning strikes to the ground anywhere on this metallic network may induce shocks elsewhere.*

### ***Swimming Pool Safety Procedures***

- 1. All Eagle Harbor swimming pools located at Swim Park, Creekside & Waterfront will be closed at the first sight of lightning or the first sound of thunder.***
- 2. When thunder and/or lightning are within 6 miles, people should be directed to safe shelter nearby.***
- 3. All Eagle Harbor pools will remain closed until thirty (30) minutes after the last thunder is heard.***
- 4. The Eagle Harbor Manager on Duty (MOD) is the sole person designated to make all decisions regarding these procedures.***

### ***Eagle Harbor Residents and their Guests Responsibilities:***

*During a lightning warning or suspension, please be respectful of the staff and other patrons. The MOD will ensure the facilities are re-opened at the earliest SAFE possible time. Patrons who choose not to follow the facility rules will be asked to leave. Irresponsible actions can cause serious injury or even death and will not be tolerated at any of Eagle Harbor's facilities.*
